

CONGRATULATIONS!

TO OUR 2024 IGNITE MY FUTURE SCHOLARSHIP WINNERS

"People helping people" is at the heart of every credit union's values. At FFCCU, we promote this principle to our future leaders through the Ignite My Future Scholarship. Each year, we select a number of high school students from our Club Ignite program to receive a scholarship in recognition of the passion and energy they put in to giving back. Have a student in your life who values community involvement and academic dedication? Applications for the 2025 scholarship will open late in 2024.

Logan Bass | Firelands High School

Logan Bass began his pursuit of volunteering in elementary school. While his parents played a crucial role in promoting the value of volunteering, seeing the joy and enthusiasm on the faces of his peers during volunteer-run book fairs at school cemented just how important it is to give back. Since then, Logan has been a volunteering jack-of-all-trades; gravitating towards whatever project needed the most support. His passion for service has directed him into scouting, with many hours spent in the Boy Scouts of America on a path toward becoming an Eagle Scout. "One of the best ways to have an impact on my community is to become a better leader and start leading by example," says Logan.

Samantha Sunderhaft | Kenston High School

Samantha has been a committed volunteer for over a decade. She is a regular part of BREATHE at Holy Angel's Church, where she serves as a program guide and companion to special needs children. She raises money for the "A Kid Again" charity and gives back to her community as a Girl Scout. But Samantha found a true calling in the wake of the pandemic when she observed the staggering impact that isolation and new anxieties had on the mental health of her fellow students. Through research, planning, and community collaborations, Samantha organized a week of mental health awareness and support during suicide prevention month. Her efforts brought in therapy dogs and donated chair massages, easily-accessed resources on suicide prevention, and even an expert guest speaker. With a continued emphasis on mental health, Samantha continues her quest to spread the message that "every mind matters."
